2006

To whom it may concern:

This is correspondence from the Men's Auxiliary in Cedar Pines Park. To inform the community on some of the things our members have accomplished from November and December of this last year.

In November, there was a significant donation made to a local non-profit organization, called Touch of Home. This group sends care packages to our troops abroad, personal things that they can't get overseas.

At thanksgiving to help out Rim Family Services, the Auxiliary purchased enough food for complete meals. Turkey and trimmings to feed 13 more families on the mountain, added to the amount they were already feeding. This is our second year of doing that!

In December, we sent another donation to Touch of Home in the same amount. Also, Patten State Hospital asked if any Auxiliary's in California could help in getting Christmas trees for 800 Veterans that are housed there. Our Auxiliary purchased 10 full size Christmas trees complete with stands. We delivered them to the hospital.

Thank you very much for your support.

Sincerely,
Paul Hartman
